D3 Raw Space

The exhibitors taking a raw space whether hiring a Stand Contractor or decorate booth by appointed contractor or by themselves need to fill in Form F2 within **27 Mar 2026**. The Exhibitor need to submit the booth design, technical drawing together with Electrical Installation Plan for approval from the organizer before starting construction. You are required to read carefully and comply with the following rules and regulations below :

- The height of the booth shall not exceed 4.5 meters, including the structure and logo (including decorative parts).
- Construction of 2-storey booths is **strictly prohibited**.
- Construction of any connecting structure between the walkways of two booths is **not allowed**.
- In the case where the space is open on all four sides, you must construct it so that 70% of the area is enclosed for use and design it with 30% open space that allow visibility through to the booths behind.
- If your booth wall adjoins a neighboring booth, you must build your own wall and are strictly not allowed to use the neighboring booth's wall. The height of the wall adjoining the neighboring booth must be no less than 2.5 meters and no more than 4.5 meters. **If your own wall is taller than the neighboring booth's, it must have the rear structure neatly covered with finishing material**, along with a back covering using painted wooden panels or a stretched fabric in white only, **and you are not allowed to attach graphics or your logo on that wall area**.
- It is strictly forbidden to bring advertising panels, construct decorations, or install any equipment outside your designated area, both on the floor and above the floor level of your own space.
- The installation of the store logo sign outside the booth structure must be at a height of 2.4 meters or above (measured from the bottom of the logo structure) but not exceeding 4.5 meters, and it must have the logo only on the side facing your booth's interior.
- Exhibitors must submit the construction plan using Form F2 along with Form 1 to the organizer by **March 27, 2026**. The submission details must include:
 1. Floor plan
 2. Elevation drawings for each side
 3. Section drawings
 4. Perspective view

- If in the case that you do not submit the booth construction plan within the designated time, the organizer will not allow you to proceed with construction.
- The organizer will mark the boundaries of your booth construction area according to the reserved space size.
- The Organizer requests that **contractors and exhibitors complete all construction work, sanding, painting, spray painting, or any activities that may cause dust within the first day of the build-up period.**
- Since your booth is a raw space, it does not have electricity or lighting. If you require electrical installation within the booth, including during the construction and dismantling days when equipment requiring power is used, **please fill out the N-Service form** to rent electrical equipment or to order electrical power from the Exhibition Contractor/EC department only.
- For product displays, a sign clearly showing your company name or booth number must be installed.
- Since your booth is a raw space, you must prepare carpeting or floor covering materials within your space before placing your products.
- **The use of adhesive tape to secure carpeting must be tape specifically designed for securing carpets,** in order to avoid damage to the venue's flooring.

Examples of booths that were constructed in a manner that did not comply with regulations

- Construction of 2-storey booths

Neighboring booths are allowed.

- No logos or messages on the back of the booth,

adjacent to Neighboring booths are allowed.

- Do not allow the construction of a structure connecting the center island between the walkways of the 2 units.

Example of a booth that is constructed in compliance with regulations

- It is strictly forbidden to bring advertising signs or construct, decorate, or install any equipment outside the area, both on the floor and above the floor.

- Example of setting up an advertising sign

- Example of setting up a product display that does not exceed the booth area

- Example of placing a logo sign that does not protrude beyond the booth area

- Example of tidying up the back

2. Gas Balloon is prohibited in the exhibition hall.

D6 Power Supply and General Hall Lighting

1. General hall lighting in the exhibition hall will be fully turn on during show date and time. The standard electricity supply is 220 Volt. power supply for exhibitor booth will be switch on 30 minutes before exhibition open and switched off 30 minutes after exhibition end each day.
2. N.C.C. Management and Development Co., Ltd. (Exhibition Contractor Department - EC) will be responsible for power supply service through out the exhibition period. Exhibitors who require 24 hours electricity supply for their specific requirements and/or additional electrical equipment or fittings fittings should indicate accordingly on the electrical order form before the deadline at N-Service.

D7 Electrical Services

The Organizer has appointed N.C.C. Management and Development Co., Ltd. (Exhibition Contractor Department - EC) as an official electrical contractor to be responsible for the following details ;

1. Standard supply of electricity

- 1.1 There are two main power supply circuits: “Lighting Power Circuit” and “For Exhibit Power Circuit”
- 1.2 The standard supply is single phase AC 220V/50Hz with $\pm 10\%$ fluctuation. For the safety of your equipment, please use stabilizer.
- 1.3 All electrical motors have independent automatic protection against excessive current surge. The following Starter systems should therefore be used:
 - 1.3.1 Direct on line: up to 5 HP
 - 1.3.1 Star - Delta 5 to 25 HP
 - 1.3.2 Auto Transformer: Above 25 HP
- 1.4 Cost of power consumption for lighting equipment (installed by exhibitor/contractor) per 1 unit
 - 1.4.1 Apply for lighting equipment not more than 5 units and not exceeding 100 watts in total.

- 1.4.2 Apply for ribbon light maximum 5 meters per installation.
- 1.4.3 For safety precaution and avoid obstruction to access and traffic in side the exhibition hall, electricity wire across entrance , gangway is not allowed.
- 1.5 Ower supply will be switch on from 13.00 hrs. on 29 Apr 2026 onwards.
- 1.6 N.C.C. Management and Development Co. Ltd (Exhibition Contractor Department-EO) reserve the right not to refund the payment in case of order cancellation.
- 1.7 In case that 24 hours electrical supply required, the charge will be increased 100% (2 times) from normal rate.
- 1.8 Breaker cable length is 3 meters maximum from Utility hole. In case that cable extension is required: There will be extra charge of Bht. 200/meter (Not include VAT 7%)
- 1.9 In case that relocation of electrical fitting or equipment required, there will be extra charge Bht. 200 per unit.
 - 1.9.1 Utility Hole Relocation for 1 unit of breaker single phase 220 Volt will be charged Bht. 1,000 per unit. (Not include VAT 7%)
 - 1.9.2 Utility Hole Relocation for 1 unit of breaker three phase 380 Volt will be charged Bht. 2,500 per unit. (Not include VAT 7%)

The Exhibitor, contractor, person involve must submit their electrical order with at least 20% surplus from the order required for safety factor and to avoid any incident from using full capacity of electrical wiring system. It is a must that proper and standard electrical cable being used with ground systems at every connecting point.

2. Electrical Service for Standard Shell Scheme Package

- 2.1 Electrical service for standard shell scheme package consisted of lighting equipment and 5 amp 200 Volt Socket. Locations of lighting equipment and socket points in the standard booth are fixed locations and may not be moved. Socket point is strictly prohibited to connect the light fitting.
- 2.2 The electrical services order form is divided into 4 sections
 - Electrical Service order for booth set up and dismantling period.
 - Section 1: For Exhibitors requiring light fitting to N.C.C. Management and Development Co., Ltd. (Exhibition Contractor Department -EC).
 - Section 2: For exhibitors requiring electrical services for their exhibit only NOT for lighting.

- Section 3: For exhibitors using their own special light fittings, either to be installed by themselves or by contractor.
- 2.3 All additional electrical orders in the electrical order form must submit together with location plan for light fitting and utility required. Please read rules and regulations specified in the form.
 - 2.4 The exhibitors who have been approved to use their own special lighting must order electrical sources from the electrical order form either through Section 3 only.
 - 2.5 The organizer reserves the right to disconnect the electrical supply to any installation, which in the opinion of official Electrical Contractor, N.C.C. Management and Development (Exhibition Contractor Department-EC) is deemed dangerous or likely to cause annoyance to visitors or other exhibitors.
 - 2.6 Power supplies to the exhibits and booth lighting will be switched off at source 30 minutes after the exhibition closes every evening and 60 minutes after exhibition closes on the final day of the exhibition, except 24 hours electrical service.
 - 2.7 Any illegal connection/adaptation found will be disconnected without prior notice. This will also include multi-outlet adapters and any extension from the socket point.

3. Electrical Service for Special Design Booth

- 3.1 The exhibitors who apply for “RAW SPACE” or any special design booth must submit their electrical order together with their layout plan before the deadline
- 3.2 General hall lighting will be provided by organizer. All electrical power supplies in the booth and for demonstrations must be installed by the official electrical contractor, N.C.C Management and Development Co., Ltd. (Exhibition Contractor/EC Department) and arrange payment within the stated deadline. For safety reason, exhibitors are not allowed to connect their exhibits or lighting to the building’s main distribution. The organizer reserves the right to stop power supply in case of improper connections.
- 3.3 A proper power input terminal must be installed by the approved contractor by the organizer for inspection by the official electrical contractor (Exhibition Contractor Department-EC) prior to connection to the supply line.
- 3.4 Priority will be given to those exhibitors who order their electrical items from the organizer’s official electrical contractor, N.C.C. Management and Development Co., Ltd. (Exhibition Contractor Department-EC)
- 3.5 Any illegal connection/adaptation found will be disconnected without prior notice. This will also include multi-outlet adapters and any extension from the socket point.

- 3.6 No flash lights will be permitted unless they form an integral part.
- 3.7 The organizer reserves the right to disconnect the electrical supply to any installation, which in the opinion of official electrical contractor, N.C.C. Management and Development (Exhibition Contractor/EC Department) is deemed dangerous or likely to cause annoyance to visitors or other exhibitors.
- 3.8 All electrical installation must strictly comply with the required standard safety regulations without exception.
- 3.9 All electrical wiring must use the proper standard wiring cable with grounding connection applied to all connecting points. In case that official electrical contractor after their inspection found out that the standard cable has not been met or improper connection to the standard safety, the Organizer reserves the right to temporary withhold the power supply until the correction is proceeded.

Breaker	Standard size
15 Amp/220 V. 1 phase 50 Hz.	2x2.5 Sq.mm. , 1.5 Sq.mm./Ground
15 Amp/380 V. 3 phase 50 Hz.	4x2.5 Sq.mm. , 1.5 Sq.mm./Ground
30 Amp/220 V. 1 phase 50 Hz.	2x6 Sq.mm. , 4 Sq.mm./Ground
30 Amp/380 V. 3 phase 50 Hz.	4x6 Sq.mm. , 4 Sq.mm./Ground
60 Amp/380 V. 3 phase 50 Hz.	4x16 Sq.mm. , 6 Sq.mm./Ground
100 Amp/380 V. 3 phase 50 Hz.	4x35 Sq.mm. , 10 Sq.mm./Ground
150 Amp/380 V. 3 phase 50 Hz.	4x70 Sq.mm. , 16 Sq.mm./Ground
200 Amp/380 V. 3 phase 50 Hz	4x95 Sq.mm. , 16 Sq.mm./Ground

- 3.10 In case that the exhibitor want to order breaker 380V.3P 50Hz., it is allowed to only use 1 sub circuit. Load center in the booth is required if more that 1 sub circuit needed. The organizer reserves the right to temporary withhold power supply until (Load Center) is installed. The connection to breaker must be done with RING TERMINALS only. Bare wire is prohibited to directly connect to breaker. If the contractors/exhibitors fail to comply with the regulations, the Organizer

reserves the right to stand ready to cut off power immediately and will charge 20 times from the price in the order form.

Terms & Conditions of Security Service

1. Booth security service shall be solely provided by the security guards of QSNCC. Any applicants (hereinafter called "The Exhibitor") who would like to apply service from outsource security must obtain an approval in writing from the N.C.C. Management and Development Co., Ltd. (hereinafter called "QSNCC"), Event Services Department at least 7 days prior to the event date.
2. The exhibitor shall insure for the damage and loss of his/her property by his/her own cost.
3. In case of loss/damage of the exhibitor's property within the booth, which is under patrol of QSNCC's security, the exhibitor must inform QSNCC in writing included of its value & damage detail within 24 hrs. Also the exhibitor must cooperate with QSNCC for investigating and lodging a complaint to the concerned authorities.
Should the exhibitor fails to inform QSNCC within 24 hours, the exhibitor will not be entitled to claim for compensation from QSNCC.
4. If the security guards perceive the risk by defect, mistake, or careless in storing property by the exhibitor, the exhibitor will be noticed & warned accordingly. In this case, should loss/damage of the exhibitor's property still occurs, which is proved that it is because of defect, mistake, or careless of the exhibitor, the exhibitors will not be entitled to claim for compensation from QSNCC.
5. In the case that QSNCC is liable for compensation to the exhibitor, the compensation fee will not exceed 50% of the booth security service fee. The exhibitor then must provide evidence/proof as follows :
 - 5.1 The exhibitor is the owner of the property with the evidence that there was the lost property and the lost property was kept in a proper place preventing loss/damage. And the exhibitor has complied with security regulations.
 - 5.2 The loss/damage caused by burglary with evidence of traces of force or destruction of a barricade.
 - 5.3 The theft caused by action or refraining from action of the security guards, whether intentionally or gross negligently.
 - 5.4 The loss/damage was not caused by an act of the exhibitor or an employee or a dependant of the exhibitor, whether as principal or supporter or by the negligence of such persons.
 - 5.5 The exhibitor is not be able to take the lost property back.
 - 5.6 The exhibitor is not paid by the insurance company.
6. QSNCC will be responsible for the damage or loss of such the following properties except agreed in writing by both Parties
e.g. bank notes, gold, gems/jewellery, antiques, valuable works of art, coins, blueprints, important documents, debt securities, securities or financial documents, credit cards, cheques, book accounts and all other business documents.
7. The exhibitor, its representative, and the employees of the exhibitor shall adhere strictly by the advice of the security guards, requirements, restrictions and regulations concerning the security set forth by QSNCC.
8. If there is any obstruction, which affects to deficiency of service, QSNCC will promptly correct it. However, the exhibitor is not entitled to deduct or reduce the service fee hereby and shall not terminate this service contract or related contracts.
Hereby, QSNCC will not be liable to any compensation to the exhibitor.
9. These terms and conditions are made in both English and Thai Languages. The Thai version shall prevail in the event of discrepancies.

To ensure the safety and efficiency of electrical installation within the event area, the company has observed incidents of electrical short circuits and safety hazards caused by the use of substandard equipment or improper installation by exhibitors and contractors. These issues may cause serious risks to workers and visitors. To prevent such risks, all exhibitors and contractors are required to strictly comply with the following regulations:

1. All electrical installation must conform strictly to the required TISI standard (in Thailand) without any exception.
2. There are two main power supply circuits: "For Exhibit" and "For Lighting". It is forbidden to misuse the power supply as follows.
 - a. Orders under Section B: Socket/Breaker for Exhibits are allowed for devices such as machinery, engine, TV, Laptop charger, etc. and **not allowed** to apply for all Lighting equipment such as spotlight, LED Ribbon, etc.
 - b. Orders under Section C: Breaker for Lighting are allowed for devices such as Spotlight, LED, Ribbon, etc.
3. The cable of a main power, water, and compressed air supply from the utility hatch, is provided at **2-meters** long. An extension of the length or any relocation are subjected to a surcharge following the price for each equipment.
4. The standard electrical supply is 110V, 220V, or 380V with approximately 10 percent fluctuation. To prevent potential electrical accidents resulting from the use of full electrical load and to ensure a stable voltage supply, exhibitors must bring their own voltage stabilizer.
5. For all electrical usage, it is mandatory to calculate the circuit load with a 20 percent safety margin.
6. It is prohibited for power supply, water, and compressed air wiring equipment to be installed crossing any aisle in the exhibition for safety reasons and not to obstruct traffic for all exhibitors, visitors, and other contractors.
7. A 3-Phase circuit breaker is required to **connect directly** with machinery or engine, otherwise, a **load center** will be required if multi-connection is needed.
8. The company prohibits any equipment installation that causes damage or misuse to our equipment installed for the exhibition.
9. Please beware when installing any equipment or materials. Do not clamp, hang, or place any objects on electrical cables or connection points, as pressure or contact may damage the cable insulation, which could result in electrical leakage to ground, posing a safety hazard or causing a short circuit. If exhibitors need to install graphics or other materials on booth structures where electrical wiring or equipment runs through or is located near the installation area, please inform the service counter staff in advance so that the power supply can be temporarily shut off until the installation is completed.
10. The Electrical Official Contractor reserves the right to disconnect the electrical supply to an installation, which in opinion is deemed as dangerous or likely to cause disturbance to others without prior notice. Exhibitors/contractors will not be entitled to claim any damages both directly and indirectly from any and all parties involved.

3. The standard electrical supply is 110V, 220V, or 380V with approximately 10 percent fluctuation. To prevent potential electrical accidents resulting from the use of full electrical load and to ensure a stable voltage supply, exhibitors must bring their own voltage stabilizer.
4. The cable of a breaker; from the utility hatch, is provided 2-meters long, an extension of the length is subject to a **surcharge** of 220 Baht/m. (**1Phase220V**) and 450 Baht/m. (**3Phase380V**) not exceeding 30Amp3Phase (Excluding vat 7%)
5. Relocation cost ; **Equipment:** 220 Baht/Unit, **Utility Hole (1 Phase 220V):** 1,300 Baht/Unit, **Utility Hole (3 Phase 380V):** 2,500 Baht/Unit not exceeding 60Amp3Phase (Excluding vat 7%)
6. Exhibitor must indicate all positions' equipment in **Utility Point Form**. All relocation on-site will be at the exhibitor's expense.
7. All on-site orders are to be paid in full cash (Thai Bath) only.
8. Withholding tax of 3% of services may be deducted only when applying with an official withholding tax form upon placing order.

Payment process :

The order will be successful, when the exhibitor completed the full payment only. Payments are accepted Thai cash baht or cash cheque held to N.C.C Management and Development Co., Ltd. Another payment method allowable is Bill payment. When your order is completed, NCC Accounting will send the official invoice to the email mentioned in the order form. Exhibitor's may also scan the barcode on the invoice to complete a payment (Please fully complete information in the order form to receive the correct invoice)

Please contact our Accounting for additional information or assistance about the receipt and invoice
